REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
KIGOMA REGION
UVINZA DISTRICT COUNCIL
FORM ONE TERMINAL JOINT EXAMINATION, MAY 2026.**

MATHEMATICS

INSTRUCTIONS

TIME: 2:30 HOURS

1. This paper consists of a total of ten (10) questions.
2. Answer all questions.
3. Each question carries ten marks

wazaelimu.com

1. (a) With examples, explain only three branches of mathematics you know.
b). Change 2.4 into fraction and represent it on a number line.
2. (a) A bag of cement weighs 50 kg. How many bags are needed to make a total weight of 600 kg?
(b) Round 7.364 to:
(i) One decimal place
(ii) The nearest hundredth
3. (a) Find the value of i) $7(-2+10)$ ii. $91 \div 3(7-3+1)$.
(b) Show the comparisons of 0.54 and 0.33 by using both number line and inequality symbol
4. (a) Evaluate the followings and correct the answers into 2 decimal places
i. 7.351×2.3
ii. 0.83×0.73
(b) Identify all irrational numbers, whole numbers and rational numbers in the following list:
 $1\frac{1}{3}$, -10, $\frac{11}{23}$, 8.47, 0, π , and $\sqrt{8}$
5. (a) Hamisi, Asha, and Juma share money in the ratio 3:4:5. If Asha gets TSh 16,000, how much do Hamisi and Juma receive?
(b) A trader buys a radio for TSh 75,000 and sells it for TSh 90,000. Find:
(i) The profit made
(ii) The percentage profit

6. (a) A shopkeeper sells 3 loaves of bread and 2 packets of milk for TSh 4,000. Another customer buys 2 loaves of bread and 3 packets of milk for TSh 3,600. Let x be the price of one loaf of bread and y be the price of one packet of milk. Form two equations and solve for x and y .

(b) Convert 0.666... in form of $\frac{a}{b}$

7. (a) Write the following repeating decimals by using dot and bar:

- i. 0.333...
- ii. 0.639639.....
- iii. 0.0747747747

(b) Explain any four mathematical skills that are useful

8. (a) List four rational number equivalent to a number whose numerator is (-2×1) and denominator is $(2+1)$

(b) A box can contain 7 chalks. There are 351 chalks to be packed in this boxes. Approximate the required number of boxes and determine the number of chalks left unpacked.

9. (a) Correct the following numbers into 3 decimal places:

- i. 0.00606
- ii. 2.6047
- iii. 72.87247

(b) Arrange the following numbers in ascending order: -10 , $\frac{11}{23}$, 0.6, 0, π , and 0.3'

10. (a) How many significant figures found in:

- i. 2.30004
- ii. 0.0804
- iii. 3,000 km
- iv. 0.0016500

(b) Two pieces of wire are joined end to end, one of 15 length and other of $\frac{1}{3}$ length. Find the total length of a wire and correct into 2 decimal places
